CADRE

FINAL PRACTICAL EXERCISE EARTHQUAKE

Presented By:- Pavan Dev Gaur,2IC

CADRE
Community Action for Disaster Response

OBJECTIVES

Upon completion of this lesson, you will be able to :-

1. Understand the operational sequence of a community responder, secure the wellbeing of your family if possible, and decide whether you can join the community response team

2. Gather information and formulate a plan of action to search and locate possible trapped victims

3. Conduct C-QRST, evacuate and transport victims safely in the event of an emergency or a disaster.

SCENARIO

- Your family and neighbors were awakened in your sleep when you felt vibration and movement of the ground.
- Hanging objects swing. Dinner plates, glasses, windows and doors rattle. Floors and walls of wood-framed buildings creak.
- What will be your First reaction?

SCENARIO

- You again felt movement of the ground. The strength of movement frightened your family members prompting them to run outside of the house. Upon reaching the front of your house you see a lot of people outside.

- Hanging objects swing violently. Dinning utensils clatter and clink, some are broken. Some figurines and decors fell. Light cabinets topple over.

GENERAL SCENARIO

- You heard from the news that 8.2 earthquake happened at 10:00am today with the epicenter located at Paneba City. There were buildings that are reported to have collapsed.

- What will you do to prepare your family in this situation?

SCENARIO

As a Community Responder, you decided to report to your Community Action Disaster Center (CADRE). Upon arrival you discover that some houses in your community collapsed and there were a number of people who needs help.

SCENARIO

SCENARIO

PREPARE FOR RESPONSE!

REVIEW

Now you will be able to :-

1. Understand the operational sequence of a community responder, secure the wellbeing of your family if possible, and decide whether you can join the community response team

2. Gather information and formulate a plan of action to search and locate possible trapped victims

3. Conduct C-QRST, evacuate and transport victims safely in the event of an emergency or a disaster.
